REPORT OF SCHOOL BOARD

FOR YEAR ENDING MARCH 1, 1901.

The past year, as a whole, has been a very successful one for the schools of this town. It has been the policy of the board to employ resident teachers when they were available. They were teachers who have had considerable experience in our schools, and their valuable work is so well known that any individual mention of them is entirely unnecessary. The out-of-town teachers that we have employed have given good satisfaction.

The average attendance during the year has been very good, but in some of the schools there is room for improvement. No teacher, nor can any board of education, make a school what it should be, unless the parents and guardians stand behind them and uphold them in their efforts. No school is what it could and should be, if the children are not there regularly.

The literary fund has now been completely expended. The town did not make any appropriation for Kezer Seminary last year, so the tuition of the district pupils has been paid from the school money, thus lessening it and necessitating the shortening to twenty-eight weeks of the number of school weeks throughout the district.

The Superintendent of Public Instruction desires that we should take steps towards uniting with some of the surrounding towns, for the purpose of forming a supervisory district, employing a superintendent of schools. If this is done the state will pay one half of the salary of the superintendent. This method is used in other states, and has been adopted by parts of our own state.

Your committee recommend that some repairs be made upon the Hackleborough school house, and as this report will notify you of the proposition in advance of our coming annual meeting, it is suggested to those interested that they examine the building and be prepared to act with full understanding of what repairs are necessary.

Respectfully submitted,

MILLARD F. EMERY,

Chairman.
